

COMPANY INTRODUCTION

Vision

- To establish strong technical traction by providing technical solution of every Environmental problems.

Mission

- We offer in each of our expertise areas, “Nothing but the Best”.

Value Proposition

- Anything in our Field can be copied but our passion to give customers a great experience can never be copied.

CORE VALUE

- EET is a Team of qualified and professionally experienced Engineers and scientists with zeal to work, committed to provide the best in line with continuous up-gradation of quality services for client's total satisfaction by assessing their need in-depth.
- At EET, we offer various types of services and products which will be especially useful for abatement of pollution and environmental matters. We offer in each of our expertise areas, “Nothing but the Best”.
- EET provides most economical and technically feasible customized solutions to meet the individual requirements of the project/client ranging from “Concept to Commissioning” all from one roof.

JOURNEY OF EXCEL ENVIRO TECH

2002

Excel Enviro Tech was founded by Mr. Manoj Jain

2004

GPCB Recognized Consultant

2007

**GPCB Recognized
Schedule-II Auditor**

2010

Applied for NABET

2011

**Shifted to Ashram Road
Premises with 30+
Employees Strength**

2015

**Proceeded for NABL
Certification**

2020

**Applied for MoEF
Accreditation**

**TF-2, Sun House, Nr. Old High Court, Off. Ashram Road,
Ahmedabad-380009**

SPECIALTY CHEMICAL SUPPLY

Sr.No	Name of the Company
1.	Hydrated Lime
2.	Sodium Hypochlorite
3.	Activated Carbon
4.	De-Oiler
5.	Color Removal
6.	Ferric/Non-Ferric Alum
7.	Caustic Soda
8.	Anti-Scalant
9.	Sand & Silica
10.	Urea/DAP
11	Poly Electrolyte
12	Poly Aluminium Chloride
13	Chlorine Tablets
14	Softening & DM Plant Resin
15	Ferrous Sulphate
16	Sodium Meta Bisulfite
17	Starch Powder
18	High & Low pH Chemicals
19	Sodium Bi-Carbonate
20	Hydrochloric Acid, Sulphuric Acid, Phosphoric Acid

ORGANIC WASTE CONVERTER

- We can reduce this with the help of Organic Waste converter, where organic waste can be converted to fertile **manure**.
- Introducing HEALTHIVA make OWC, which will give you compact solution to Municipal waste management.
- You can convert almost all organic material (wet domestic solid waste); like food waste, paper; leaves to good quality manure.
- Our organization is engaged in manufacturing all kind of composting machineries and equipment's.
- By using OWC, you can have following benefits;
 - Less space requirement
 - Reduce environment degradation
 - Legal compliance
 - Generation of good quality manure for fertility

Sewage Treatment Plant

- The wastewater discharged from domestic premises like residences, institutions, and commercial establishments is termed as sewage or wastewater. It includes waste liquid from toilets, baths, showers, kitchens, and sinks draining into sewers. Sewage treatment refers to the process of removing contaminants, micro-organisms and other type of pollutants from wastewater, primarily from household sewage. Sewage treatment includes physical, chemical, and biological methods to remove contaminants and produce environmentally safe treated wastewater to make it usable again.

SURVEYS

Illumination Survey: It shall be conducted to identify the proportion of light, glare, low light or flickering light, to avoid, potential hazards and evaluation of risk to improve employee safety and their visual eye-sight.

Ergonomics Survey: Every organization focuses more on the productivity of the employee and to help the company to accomplish the vision and improve the productivity of the employee.

EET with the help of Ergonomic Survey helps in identifying all the potential hazards that humans can face In the premise and replacing them with more facilitating design

Soil Survey: To yield more crop production and plant appropriate crops EET helps the farmers by analysing the Micro-Nutrients and Macro Nutrients present In the soil and help them plan which crops shall be best suitable and which additional components shall be added to have high yield and good quality of crops.

Traffic Survey: Traffic surveys aim to capture data that accurately reflects the real-world traffic situation in the area. It may be counting the number of vehicles using a road or collecting journey time information

EET helps the industry to conduct the survey and identify the potential threats and also suggesting some necessary measures to avoid the hazards and comply with the regulatory authorities and standards.

INDOOR AIR QUALITY MONITORING

Risks

-
- 3.5 Million deaths Annually
- 2 Million Pre-mature deaths
- 10 Times worse than air pollution
- In Low income countries it accounts for 6% of deaths.

Pollutants

- Particulate Matter
- Sulphur Oxide
- Nitrogen Oxides
- Carbon Monoxide & Dioxide
- Ozone
- Lead
- TVOC
- VOC's
- Microbial count.
- Benzene

Advantages

- Clean work environment.
- Helps to assess air quality and take necessary actions.
- To plan Air Pollution Control programs.
- To understand study mortality rate and its impact on the health of employees.
